

A photograph of a modern interior. On a white console table, there is a lamp with a polished brass dome shade and a dark, tapered base. To the right of the lamp, two books are stacked. The top book has a dark cover with the text 'HARTLER' and 'EVOCATIVE STYLE'. The bottom book is white with 'AD at 100' and a small logo. The background is a light-colored wall with a large, simple rectangular frame. The lighting is warm and soft, creating a cozy atmosphere.

LIGHTING

FABRICS & FINISHES

Heathfield & Co

INTRODUCTION

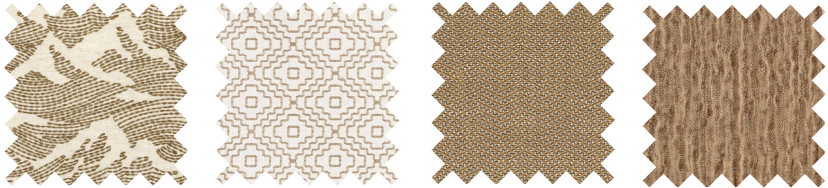

At Heathfield & Co, we celebrate the inherent beauty of natural materials. From combining unique finishes in unexpected and innovative ways, to obsessing over organic shapes and unusual silhouettes, our lighting is created to stand as a decorative object in its own right.

Guided by this focus on natural materials, our collections are carefully curated in a classic palette of earthy tones that won't go out of style. We create lighting for modern living, but prefer to ignore fleeting trends. That's because we want our lighting to sit comfortably in your space for years to come.
