Installation Guide

CEILING LIGHT | DAHLIA

General Notes

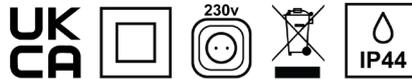

- Before carrying out installation, please ensure that you have read and understood this document carefully.
- This fitting is IP44 rated, suitable for use in bathrooms. Please refer to our bathroom guide for more information: heathfield.co.uk/stories/lighting-guide-the-bathroom
- An IP rated terminal block must be used in this fitting for use in a bathroom.
- Switch off electricity and ensure the correct wiring procedure & regulations have been checked with a qualified electrician.
- Ensure the fitting is being fixed to a suitable surface, strong enough to support the weight of the product.
- Ensure that suitable fixings are used - additional fixing screws are not included.
- The ceiling mount and fixing screws are supplied already attached to the fitting.
- Save these instructions for future reference.
- If you have any additional questions, please contact our sales team.

Caution

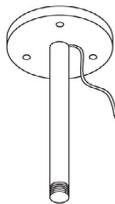

Installation of this fitting must be carried out by a qualified electrician.

Warning

Electricity must be switched off at the mains fuse box before installing this fitting.

Installation Guide

CEILING LIGHT | DAHLIA

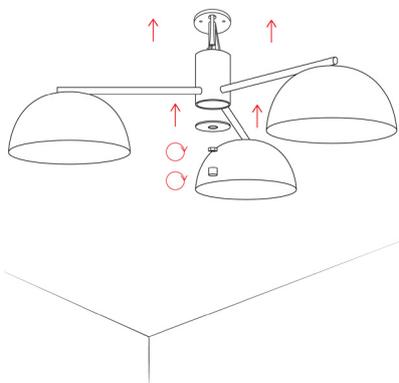

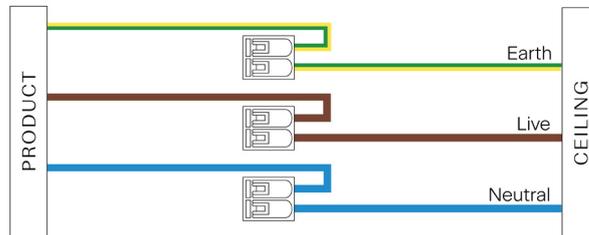

STEP 1

- Switch off the electricity at the mains fuse box. Turning off the power at the switch is not sufficient.
- Remove the bottom cap, fixing screw nut and finial from the rod which is connected to the ceiling mount.

STEP 2

- Fix the ceiling mount to the ceiling using appropriate fixings.
- Make electrical connections, following the below wiring diagram. Please note you will need to hold the weight of the pendant while connecting the wires.

STEP 3

- Offer the ceiling light up to the ceiling mount & place the bottom cap at the end of the rod.
- While holding the bottom cap and ceiling light in place, attach the fixing screw nut and finial onto the rod end.
- Push in the G9 bulbs.
- Carefully screw on the glass shades.
- Switch the power back on.
