Installation Guide

TABLE LAMP | CARME PORTABLE

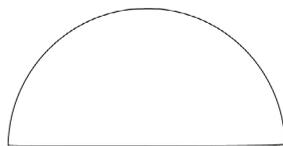

General Notes

- Before carrying out installation, please ensure that you have read and understood this document carefully.
- This product contains an integrated LED light source. Do not attempt to replace the lamp. In case of failure, please contact our sales team.
- This lamp is IP44 rated and is protected from moderate moisture exposure in gardens and patios. Please note it is not suitable to leave outside in bad weather conditions.
- This lamp is portable and has a 3.7V rechargeable battery with a 5200mAh battery capacity. It will last approximately 9-12 Hours.
- This lamp has a four section touch switch located at the top. The lamp has three brightness settings 20%, 50% and 100%.
- This lamp comes with a Type C charger cable with USB (approx. 1 metres)
- Save these instructions for future reference.
- If you have any additional questions, please contact our sales team.

Caution

Please ensure the portable lamp is not plugged into the charger when assembling. Please use only the supplied USB Type-C cable that came with your device. Using a different Type-C cable may result in incompatible charging, slower performance, or potential damage to the device. Do not attempt to dismantle or open the device. Any unauthorized disassembly will void the warranty, as it may cause damage or compromise product integrity.

Installation Guide

TABLE LAMP | CARME PORTABLE

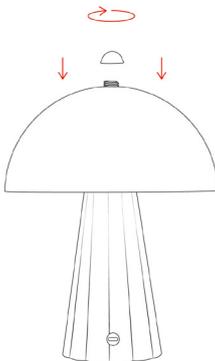

STEP 1

- Take out and check that all components are correct.
- Unscrew the touch switch finial from the LED light unit.

STEP 2

- Place the opal glass shade onto the thread at the top of the LED light unit.

STEP 3

- Screw the touch switch finial onto the thread above the opal glass shade.
- To charge, insert the charger cable into the jack located at the back of the base.
- Ensure that the input voltage of the USB is DC 5V.
