Installation Guide

WALL LIGHT | CAPA

General Notes

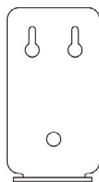

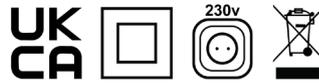

- Before carrying out installation, please ensure that you have read and understood this document carefully.
- This fitting is suitable for dry, indoor use only.
- Switch off electricity and ensure the correct wiring procedure & regulations have been checked with a qualified electrician.
- Ensure the fitting is being fixed to a suitable surface, strong enough to support the weight of the product.
- Ensure that suitable fixings are used - additional fixing screws are not included.
- The liner plate and fixing screws are supplied already attached to the fitting.
- Save these instructions for future reference.
- If you have any additional questions, please contact our sales team.

Caution

Installation of this fitting must be carried out by a qualified electrician.

Warning

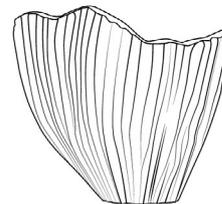

Electricity must be switched off at the mains fuse box before installing this fitting.

Installation Guide

WALL LIGHT | CAPA

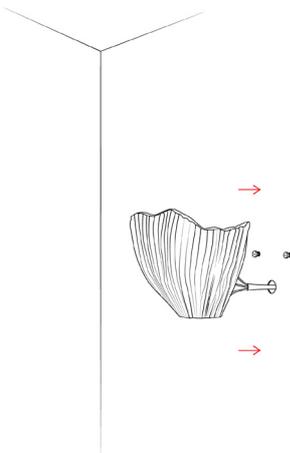

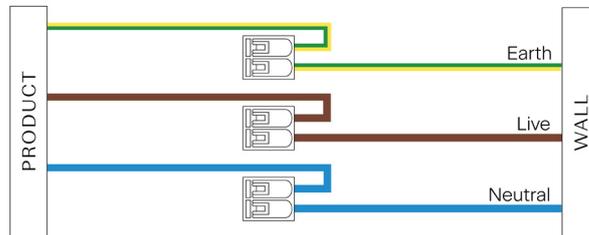

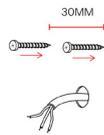

STEP 1

- Switch off the electricity at the mains fuse box. Turning off the power at the switch is not sufficient.

STEP 2

- Using appropriate fixings, place two screws 30mm apart on the wall.
- Make electrical connections, following the below wiring diagram.

STEP 3

- Offer the wall light (with the liner plate attached) to the screws on the wall, make sure the holes on the liner plate match the screws and hook the wall light onto them.
- Screw in the lightbulb.
- Switch the power back on.
