Installation Guide

WALL LIGHT | HERA

General Notes

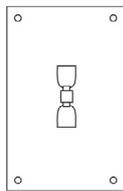

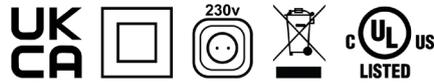

- Before carrying out installation, please ensure that you have read and understood this document carefully.
- This fitting is suitable for dry, indoor use only.
- This fitting is UL compliant. If you require a specific size of backplate for UL use, please inform our sales team.
- Switch off electricity and ensure the correct wiring procedure & regulations have been checked with a qualified electrician.
- Ensure the fitting is being fixed to a suitable surface, strong enough to support the weight of the product.
- Ensure that suitable fixings are used - additional fixing screws are not included.
- The liner plate and fixing screws are supplied already attached to the fitting.
- Save these instructions for future reference.
- If you have any additional questions, please contact our sales team.

Caution

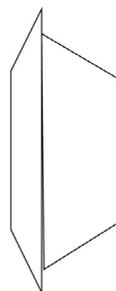

Installation of this fitting must be carried out by a qualified electrician.

Warning

Electricity must be switched off at the mains fuse box before installing this fitting.

Installation Guide

WALL LIGHT | HERA

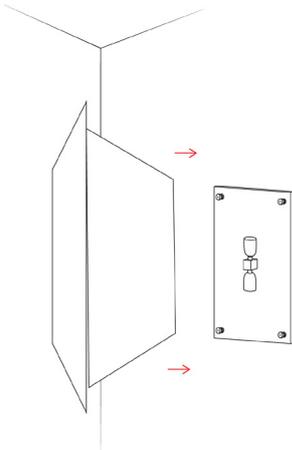

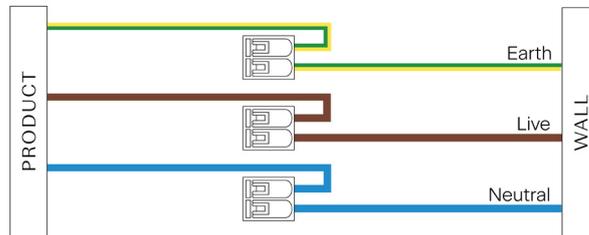

STEP 1

- Switch off the electricity at the mains fuse box. Turning off the power at the switch is not sufficient.
- Remove the metal shade from the liner plate.

STEP 2

- Fix the liner plate to the wall using appropriate fixings. Make sure to leave some of the screw thread visible.
- Make electrical connections, following the below wiring diagram.

STEP 3

- Screw in the lightbulbs.
- Offer the metal shade to the liner plate, hook it onto the four screws.
- Switch the power back on.
